MEDI-CAL COUNTY PROGRAM MONTHLY AVERAGES FISCAL YEAR 2000-2001

MEDI-CAL REPORT PUBLISHED: JANUARY 2002 Internet Homepage - http://www.dhs.ca.gov/mcss

ABSTRACT

Summary of average monthly Medi-Cal program data, eligibles as a percent of the county population, rates of users per 100 eligibles, and cost per user for each county.

INTRODUCTION

Utilization and provider payments for Medi-Cal services vary from county to county. This report updates prior reports and offers county data for Fiscal Year 2000-2001.

HIGHLIGHTS

Table 1

Statewide, an average of 5,226,284 persons were eligible for Medi-Cal each month of Fiscal Year (FY) 2000-2001. The Medi-Cal population reflected 15.0 percent of California's total population.

The percentage of the population eligible for Medi-Cal varies sharply from county to county. In Tulare County, 27.1 percent of the population was eligible, while in Marin County, only 4.4 percent was eligible.

In most of the counties (41 of the 58), at least one person out of ten was eligible for Medi-Cal during FY 2000-2001.

In Los Angeles County, an average of 1,988,924 persons were eligible for Medi-Cal each month. This was 20.3 percent of the county's population. Los Angeles County accounted for 38.1 percent of the statewide Medi-Cal population.

Over half of the total Medi-Cal population was located in only four counties: Los Angeles, San Diego, San Bernardino and Orange.

Table 2

County Organized Health Systems (COHS) counties are not included in this table due to incomplete data.

Statewide, the percentage of persons who were eligible for fee-for-service Medi-Cal who actually used a covered service averaged 66.7 percent in FY 2000-2001.

Forty-eight California counties had user rates of 50 percent or more in FY 2000-2001 for fee-for-service.

Alpine County, whose eligible population averaged 191 persons per month, had the lowest user rate, 43.5 percent.

Statewide, the average cost per user was \$568.49. Sierra County's cost per user of \$996.73 was the highest and the lowest cost per user was Alpine County at \$292.86.

In twelve counties, the cost per user rates ran 25 percent or more below the statewide average. Four counties had rates 25 percent or more above the statewide average.

Various factors may influence the average cost per user in a county. One factor is the relative proportion of users receiving the more costly services, such as state hospital services, acute care hospital inpatient services, or long-term care.

DATA QUALIFICATIONS

Figures in this report do not represent the official budget figures for medical and related expenditures.

Expenditures in this report represent cash flow payments for medical care. Included are provider payments reported in the Paid Claims System, by Delta Dental, state hospitals, and the major fiscal intermediary, Electronic Data Systems.

Excluded from this report are Medi-Cal payments for Early Periodic Screening, Short Doyle/Medi-Cal, Medicare Buy-In, per capita payments for managed care plan coverage, audit recovery monies, refunds and administrative expenses.

County Organized Health Systems (COHS) are Medi-Cal pilot projects that are prepaid on a capitated at-risk basis. The first COHS went into effect June 1, 1983 in Monterey County and remained in effect through February 1985. A second was effective September 1, 1983 in Santa Barbara County. The Health Plan of San Mateo was effective December 1, 1987. The Partnership HealthPlan - Solano County was effective May 1, 1994 (formerly the Solano Partnership Health Plan). Orange County Organized Health System (CalOPTIMA) was effective October 1, 1995. Santa Cruz County Health Options was effective January 1, 1996. Santa Cruz now has a new name: Central Coast Alliance for Health-Santa Cruz. The Partnership Health Plan - Napa County was effective March 1, 1998. Monterey County became a COHS effective October 1, 1999. Its plan name is Central Coast Alliance for Health-Monterey. The most recent is Yolo County, which began in March 2001. Its name is Partnership Health Plan of California - Yolo.

Authorization and payment for most health care services are handled by the COHS for all Medi-Cal eligibles in the respective county. Certain services continue to be handled by other agencies, including dental services, which are handled by Delta Dental (DD) for all counties. The Statewide COHS enrollment averaged 426,308 persons per month during FY 2000-2001.

It should be noted that utilization and cost data for Medi-Cal Health Care Plan (HCP) enrollees are not available and are excluded in Table 2. Not included are the Health Care Plans in Alameda, Contra Costa, Fresno, Kern, Los Angeles, Marin, Placer, Riverside, San Bernardino, San Francisco, San Joaquin, Santa Clara, Sonoma, Stanislaus, Tulare and Yolo County. The Statewide HCP enrollment averaged 2,046,526 persons per month during FY 2000-2001.

A Geographic Managed Care (GMC) pilot project began April 1, 1994, in Sacramento and July 1, 1998, in San Diego. Utilization and payment data reported in Table 2 for Sacramento County and San Diego County reflect only claims processed through the State's fiscal intermediaries (EDS and DD) and claims for state hospital services.

The lower figures for eligibles reported in Table 2 as compared to Table 1 reflect the exclusion of Managed Care Plans. The eight COHS counties are excluded entirely.
